SUMMARY

Software Developer with 6+ years of experience building web and mobile applications. Frontend-focused with practical backend, cloud, and operations experience. Skilled in React, Svelte, and Next.js. Proficient in AI-assisted development with Claude Code and Codex. Strong communicator experienced in cross-functional and international team collaboration.

EXPERIENCE

Senior Software Developer

October 2023 – March 2026

LG CNS Vietnam - Onsite

- Developed and maintained web and mobile apps, ensuring high performance and smooth UX
- Led a team of 3 engineers, providing mentorship, code reviews, and onboarding for new members
- Collaborated with a Korean cross-functional team to implement key features and monitor VOC feedback
- Built Korean OPIc exam platform (LENS) with audio recording, timed prompts, and automated review workflow
- Optimized page load speed on Seyo app through asset optimization and lazy loading
- Integrated Azure STT/TTS and Amazon Transcribe for speech recognition and pronunciation feedback

Web Developer

September 2021 – October 2023

Kraken (Singapore) - Remote

- Developed and optimized React-based web applications for a dry bulk shipping platform
- Designed and implemented reusable UI components ensuring consistent, responsive UX across devices
- Enhanced page loading and rendering performance by over 50% through monitoring and codebase optimization
- Improved SEO, increasing website visibility on Google Search and ChatGPT search results
- Conducted unit testing with Jest and code refactoring to improve maintainability

Junior Developer

February 2020 – July 2021

FPT Software - Onsite

- Migrated a VB.NET desktop financial application to a modern React platform for a Japanese enterprise client
- Built data collection and transformation features aggregating multiple sources into readable business views
- Maintained internal tools including the OT Management System for HR/payroll processing

Backend & Database	Node.js, Express.js, Fastify, Prisma, PostgreSQL, Firebase
Deployment & Ops	AWS, GCP, Vercel, Neon, Railway
Testing & Tools	Jest, Git, SVN, Agile, Figma
AI Development	Claude Code, Codex

EDUCATION

FPT University

2016 – 2020

BSc in Software Engineering

CERTIFICATIONS

AWS Developer Associate (DVA-C02)

IELTS 7.5

NOTABLE PROJECTS

Project	LENS Platform
Customer	Letuin Edu (Korea)
Description	Korean OPic mock exam platform with timed speaking prompts, audio recording, and automated submission/review workflow.
Product URL	letuinlens.vn
My position	Senior Software Developer
Team size	7
Technologies	Svelte, TypeScript, Fastify, PostgreSQL, GCP, OpenAI, Azure Speech Services, SpeechSuper

Project	Seyo
Customer	Talk To Me In Korean (Korea)
Description	Hybrid WebView Korean-learning app with speech recognition and pronunciation feedback powered by Amazon Transcribe (STT) and Supertone (TTS).
Product URL	Play Store · App Store
My position	Senior Software Developer
Team size	9
Technologies	Svelte, TypeScript, Express.js, PostgreSQL, GCP, AWS, Azure Speech Services, Supertone, OpenAI

Project	Butvertime
Customer	LG CNS (Korea)
Description	Hybrid WebView English-learning app for Korean users featuring speaking practice and pronunciation feedback via Azure STT/TTS.
Product URL	Play Store
My position	Senior Software Developer
Team size	9
Technologies	Svelte, Javascript, Express.js, PostgreSQL, GCP, Azure Speech Services

Project	Krakenconnect
Customer	Kraken (Singapore)
Description	Dry bulk shipping platform providing chartering marketplace, freight management, operational and scheduling solutions.
Product URL	krakenconnect.com
My position	Front-end Web Developer
Team size	6
Technologies	React, Redux, TypeScript, Express.js, MySQL, Jest, SCSS, Bootstrap

Project	Mercury Studio
Customer	JIP (Japan)
Description	Web-based financial application with data collection and transformation features that aggregate multiple sources into readable business views.
My position	Web Developer
Team size	35
Technologies	React, Redux, Redux-Saga, Ant Design, Java, PostgreSQL

Project	OT Management System
Customer	FPT Software (Vietnam)
Description	Internal OT management app with request submission, approval workflows, and tracking for HR/payroll.
My position	Web Developer
Team size	7
Technologies	AngularJS, Bootstrap, jQuery, C#/.Net, MSSQL
